CAREER OBJECTIVE

Highly motivated second-year Computer Science (AI & ML) student seeking an internship opportunity to apply Python, Machine Learning fundamentals, UI/UX design skills, and AR/VR using Unity in real-world projects while gaining hands-on industry experience.

EDUCATION

B.E – Computer Science (AI & ML)

CGPA – 8.0 2024 – Present

Sri Sairam Engineering College, West Tambaram

PROJECTS / EXPERIENCE

Terms and Conditions Analyzer (Fairterms AI)

- Accomplished automated risk classification of legal documents as measured by improved clause identification and readability by doing NLP-based text classification using Scikit-learn with data preprocessing, feature engineering, and tokenization techniques.
- Built FastAPI-based REST API with document upload and question-answering features to enable users to interactively understand complex legal documents
- Optimized model performance as measured by accuracy and F1-score improvements by doing model evaluation, hyper parameter tuning, and exploratory data analysis (EDA) on text datasets**.**

AR/VR-Based Surgical Training Platform (Unity)

- Developed an immersive AR/VR-based surgical training system to simulate real-time medical procedures in a risk-free virtual environment.
- Built interactive modules for step-by-step surgical guidance and practice scenarios. Implemented performance tracking and feedback mechanism**s** to evaluate user accuracy and efficiency.

TECHNICAL SKILLS

- Programming : Python, SQL, C#.
- Machine Learning: Regression, Classification, NLP.
- Libraries: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, PyTorch.
- Tools: Git, GitHub, FastAPI, Unity.
- Deployment: Streamlit, Flask
- Design: Adobe XD, Figma, 2D/3D Games.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the details mentioned in this resume.
